# Metallo Metal

Sinuoso, versatile, eterno, il metallo è un materiale dal design leggero, perfetto se si è alla ricerca di un prodotto accattivante dallo stile moderno e minimalista dal vago sapore industriale.

Grazie alle sue caratteristiche tecniche può essere utilizzato sui terrazzi, ma si presta anche per impreziosire spazi pubblici e privati.

Sono disponibili le colorazioni White, Silver, Black e Corten. Oltre alle colorazioni proposte è possibile realizzare RAL a vostra scelta, di tonalità lucida o opaca.

Le lastre sono zincate elettroliticamente, verniciate a polvere, cotto nel forno, e sono coibentate con un pannello in polistirene estruso 300 kpa che funge da isolante termico. È inoltre possibile realizzare lastre in Inox 316.

Sinuuous, versatile, and eternal, metal is a lightweight design material, perfect if you are looking for an appealing product with a modern and minimalist style and a slightly industrial flair.

Thanks to its technical features, it can be used on terraces, but is suitable for embellishing public and private spaces as well.

They are available in different colors: White, Silver, Black and Corten. Furthermore, it's possible to realize RAL of your choice, in glossy or matte shades.

The slabs are electro-galvanized, powder coated, baked in the oven, and are covered with a 300 kpa extruded polystyrene panel that acts as a thermal insulator. It is also possible to make 316 stainless steel slabs.

## dimensioni delle lastre componibili

altezza 50  
50x50 cm  
100x50 cm

**MODULARE  
COMPONIBILE  
SOLUZIONE A VASCA UNICA  
SENZA PARETI DIVISORIE**

Le lastre Domino Absolute, disponibili in diverse altezze, sono moduli componibili che permettono di comporre fioriere a **vasca unica** in composizioni più svariate

**MODULAR  
INTERLOCKING  
SINGLE-BASIN SOLUTION  
WITHOUT SEPARATING WALLS**

Absolute Domino slabs, available in different heights, are interlocking modules that allow **single-basin** planters to be composed in various compositions
